

# PAVESLIP – C66

## CONCENTRATED ORGANIC ASPHALT RELEASE AGENT

### Features & Benefits

- Economical at 10:1 dilution
- Environmentally Safe and User-friendly
- 100% Biodegradable & Non Toxic
- Delivers a Super Slick Release
- Non-Corrosive and Non-Hazardous
- Non-Flammable
- Non DOT Regulated
- Effective on all Polymer Type Asphalt Mixes
- Can be used in Automatic Spray Systems
- Does not Evaporate
- Outstanding Solvent Properties
- Easy Cleanup of Equipment
- Does not contain Petroleum Distillates
- Non-Corrosive to metals; will not damage glass, paint, or wood

### Description

PAVESLIP-C66 is a concentrated organic Asphalt Release Agent that contains no petroleum by products or toxic chemicals.

PAVESLIP-C66 can be diluted up to 10 to 1 with water, and prevents buildup of asphalt in truck beds, paving equipment, rubber rollers, and lay down equipment without losing anti-stick properties.

PAVESLIP-C66 can be used in concentrated form on all hot plant equipment to prevent asphalt mix from sticking during operation.

PAVESLIP-C66 was formulated for coating asphalt truck beds, tooling equipment, drag chains, and all moving parts in hot plants that produce asphalt.

PAVESLIP-C66 is an anti-stick agent that lubricates all moving parts.

PAVESLIP- C66 is user and environmentally friendly and will not harm environmental reserves or wildlife.

### Directions for Use

PAVESLIP-C66 can be diluted 10:1. 5:1 and sprayed in truck bed boxes when needed or as an anti-stick agent to prevent asphalt and tar from adhering to equipment and moving parts. PAVESLIP-C66 can be applied with a hand sprayer or pneumatic spray system. For easy release of asphalt from truck beds, apply approximate 12 - 16 oz. PAVESLIP-C66 can be applied minutes or hours before loading or commencing operations.

### Technical Specifications

Appearance: Thin Amber Liquid Concentrate

PH@ Concentrate: 6.0 - 7.0

Specific Gravity: 0.88

Boiling Point: >400 F Flash Point: 280 - 300 F Solubility in Water: Non-Soluble

VOC: Compliant

### PRODUCT SIZES

5 Gallon Pail (20 L)

55 Gallon Drum (208 L)

275 Gallon Tote (1,045 L)
