

Directions: This all purpose cleaner can be used on any hard surface that is not damaged by water. It is applicable to both manual and pressure washing equipment. Dilutions will vary from full strength to 1 oz. Per gallon 1 to 128 depending on soil accumulation and the nature of the surface. Hot water will reduce cleaning time and improve performance. Released soil should be removed by rinsing with clean water or wiping with a clean cloth or sponge. Suggested dilutions are for average soil loads, use less water or soak longer for heavily soiled surfaces.

DILUTION	PARTS OF CLEANER	PARTS OF WATER
A	1	75
B	1	40
C	1	20
D	1	15
E	1	5
F	1	5
H	1	3

Match usage below to dilution ratio chart above

AUTOMOTIVE USES:

- Degreasing Engines: Spray on H. Soak 3-5 minutes. Scrub with a stiff brush. Rinse
- Vinyl Tops: Wash with D. Rinse.
- White Wall Tires: Spray on G. and soak. Scrub with a stiff brush. Rinse.
