

**DIRECTIONS:**

Prior to coating plywood forms, apply one or two heavy brush coats to edges for waterproofing protection. Apply in a thin uniform film with a sprayer, brush, or roller. No special application equipment is necessary; however we do recommend a spray applicator. Runs or puddles need to be brushed out or wiped up. Refer to technical data sheet for further product info and application.

***Not recommended for use with Styrofoam or Latex molds.**

SUPRAFORM is a chemically active release agent containing a state-of-the-art mineral oil carrier that allows you to effortlessly strip your forms from concrete while keeping them clean and free of debris. SUPRAFORM is a multi-use form release agent that will not freeze, keeps your forms conditioned and free from rust, and is odourless and non-staining. It leaves concrete with an architectural surface, ready for application of curing compound sealer or bondable for plaster, paint, etc. SUPRAFORM can be used on various types of forms: wood, high density plywood, steel, aluminum, fiberglass and plastic, and is ideal for both interior and exterior concrete forming applications.

Safety, Storage, Shelf Life: Always wear proper PPE when handling or working with any chemical. Do NOT apply any chemicals on sun baked surfaces. Product is guaranteed for one year in original container.

SUPRAFORM

MAXIMUM PERFORMANCE RELEASE AGENT

Biodegradable, Non-Hazardous, Non-Corrosive

- **NON-STAINING** • **NO RESIDUE** • **PREVENTS RUST**
- **EFFORTLESSLY STRIPS FORMS** • **ODOURLESS**
- **KEROSENE FREE** • **REDUCES STRIPPING TIME**
